INTERLOCKING PAVERS FOR PEDESTRIAN
 AND VEHICULAR APPLICATIONS

SHOWN:
DESERTLOCK® | COOL WHITE | POLISHED

DECKS & COPING

The deck is the most prominent feature of your pool.

Artistic Pavers has an outstanding selection of paver styles and colors designed specifically for pedestrian applications that are skid resistant and comfortable to walk on barefoot. Coordinate your deck with our broad selection of matching coping to create the upscale backyard of your dreams!

SCAN TO WATCH

3 MINUTES CLIP

Your driveway deserves the same quality as your deck...

Artistic Pavers are perfect for the job!

- ✓ **Sealing is optional.**
Artistic Pavers are over 8,000 PSI. Because of additives and the high density of our pavers, algae and mildew have a difficult time growing on our product.
- ✓ **No cracked decks.**
Regular poured concrete decks and porcelain tile decks crack, Artistic Pavers flex between pavers avoiding cracks.
- ✓ **Light colors are cool on your feet!**
Our light colored pavers are typically much cooler than most other deck surfaces.
- ✓ **Salt pools, no problem.**
No deterioration from salt water pools.
- ✓ **More than three times the density or regular concrete slabs.**
- ✓ **Low maintenance.**
- ✓ **Non-porous pavers.**
Resistant to algae and mold.
- ✓ **Smooth, but not too smooth.**
Our pavers are comfortable to walk on, but not too slippery, dry or wet.
- ✓ **Beauty where it matters most!**
- ✓ **Beveled edges, no stubbing toes!**

Poured Concrete

- ✗ Needs regular sealing and maintenance.
- ✗ Cracking is inevitable.
- ✗ Not cost-effective over the long run.
- ✗ It is not attractive.
- ✗ Porous surface breeds algae and mildew.
- ✗ Repairs, if necessary, are expensive and will not match.

Travertine

- ✗ Naturally porous, breeds algae.
- ✗ Can crack in freeze-thaw conditions.
- ✗ Slick when wet.
- ✗ Affected by pool chemicals
- ✗ Non-beveled edges. When travertine shifts, it creates sharp edges that can stub toes.
- ✗ Bullnose pieces are very expensive.

Standard Porous Block

- ✗ Hot to walk on.
- ✗ Bigger space between pavers, promotes weed growth.
- ✗ Dark in color.
- ✗ Porous surface breeds algae and mildew.
- ✗ Looks chunky.
- ✗ Designed for driveways.
