ULTIMATE CLEANING TECHNOLOGY

There's a reason why Dolphin is the #1 selling robotic pool cleaner. Unlike competitor cleaners that use random patterns to clean the pool floor, Dolphins use CleverClean™ Smart Navigation to ensure complete pool coverage.

SUSTAINABLY DESIGNED. ENERGY EFFICIENT.

The Dolphin M Line consumes an average of 5 cents of energy per hour and is 8 times more energy efficient than suction and pressure cleaners.

BEST-IN-CLASS WARRANTY

The Dolphin M Line comes with a 3 year limited warranty covering parts and labor. The best protection of any robotic pool cleaner on the market.

MyDolphin™ Plus app

Connect your Dolphin to the cloud using your home Wi-Fi®. With the New MyDolphin™ Plus app you can remote control your Dolphin, set up cleaning programs, check operation status, get proactive care tips, and more.

Single Button Operation

New power supply designed for one touch operation - making Dolphins easy-to-use, while saving you time.

No More Tangling

Tired of lots of hoses and cables? Dolphins are "plug and play" and include the patented Dolphin Swivel technology that gets rid of tangling and ensures complete pool coverage.

Top Load Cartridge Filtration

Dolphin makes everything easy. Our fine and ultra-fine filters are ideal for collecting leaves, dirt and debris. Once your pool is clean, our top load filters make clean-up quick and easy. Just remove, open and rinse clean.
