A LABELED RATE OF DEFOAMER MAY BE
REQUIRED. ALWAYS READ AND FOLLOW
LABEL INSTRUCTIONS.

WEED & GRASS CONTROL

CONCENTRATE & READY-TO-USE SPRAY BOTTLE

AVAILABLE IN: 32 OZ READY TO USE SPRAY BOTTLE, 2.5 GAL, AND 250 GAL

Mirimichi Green Weed & Grass Control is a non-selective herbicide with residential, commercial, and non-crop uses. It controls weeds in homeowners gardens, driveways, patios, and flower beds. It is registered for public uses such as municipalities, right-of-ways, sports fields, golf courses, and natural habitats. Applications also include weed control in farmsteads, turf farms, production greenhouses, native grasses, ornamentals, and trees grown for production. The formulation is an easy-mix concentrate. No surfactant is needed. No translocation is necessary as the herbicide kills on contact. Since Mirimichi Green's Weed & Grass Control is rapidly broken down in soils, there is no chance for environmental buildup or runoff into ponds and streams. EPA and OMRI approved for organic production—it is a great natural alternative to traditional herbicides.

PART NUMBERS:

RTU BOTTLE - 4020320ZRTU

2.5 GAL - 40202.5G

250 GAL - 4020250G

For Organic Use

KEY PRODUCT BENEFITS

- Results in 15 minutes!
- For control or burndown of weed/grasses
- Leaves no harmful residues
- Effective weed control in cooler climates
- Readily biodegradable
- For organic gardening
